

Hung Ta™ Model HT8052 Salt Spray Tester: Description

CCSi features this high quality Salt Spray Tester for evaluating the resistance of coatings (organic, inorganic and plating, etc.) and coated specimens, to an atomized salt solution. The solution is controllable, by using no salt dilute, so as to perform water fog testing as well.

The Model HT8052 performs tests in accordance with: [ASTM B117](#); [B201](#); [D1735](#); [D2059](#); [D2247](#); and [G85](#).
