

# TABER<sup>®</sup> Linear Abraser

## Set-Up Options

The following chart is provided to assist in establishing a specific test load. To calculate the total load, sum the combined weights of the system:

<b>TOTAL LOAD = Spline Shaft + Weight Support (optional) + Attachment + Auxiliary Weight(s) (optional)</b>	<i>For more information: Call 800.742.8535 (U.S.)</i>
--	---

Spline Shaft			Weight Support*			Attachment			Auxiliary Weight		
130855	Spline Kit, stainless steel <i>10mm diam. x 300mm</i>	180g	130552	Weight Support, for 350g base load for <i>stainless steel shaft</i>	72g	130852	Wearaser Collet Kit, <i>stainless steel</i>	98g	131548	Auxiliary Weight, <i>50g</i>	50g
130855-1	Spline Kit, stainless steel <i>10mm diam. x 250mm</i>	150g	132181	Weight Support, for 350g base load for <i>aluminum shaft</i>	167g	131852	Wearaser Collet Kit, <i>aluminum</i>	28g	131611	Auxiliary Weight, <i>75g</i>	75g
130855-2	Spline Kit, stainless steel <i>10mm diam. x 200mm</i>	120g				131852-1	Wearaser Collet Kit, <i>plastic</i>	16g	131612	Auxiliary Weight, <i>100g</i>	100g
131603	Spline Kit, stainless steel <i>8mm diam. x 150mm</i>	58g				131862	Wearaser Collet Kit, <i>jumbo</i>	43g	131373	Auxiliary Weight, <i>150g</i>	150g
132190	Spline Kit, aluminum <i>10mm diam. x 300mm</i>	85g				130572	Universal Attachment, <i>stainless steel</i>	98g	130285	Auxiliary Weight, <i>250g</i>	250g
132280	Spline Kit, aluminum <i>10mm diam. x 150mm</i>	43g				130575	Scratch Kit, <i>stainless steel</i>	98g			
						131604	Scratch Kit, <i>Aluminum</i>	33g			
						130570	Crock Meter Kit,	166g			
						131716-1	Coin Holder Kit, <i>45 degree</i>	27g			
						131716-2	Coin Holder Kit, <i>60 degree</i>	27g			
						131716-3	Coin Holder Kit, <i>75 degree</i>	27g			
						131854	Adaptor Sleeve, <i>10mm to 8mm</i>	1.3g			

- NOTES:**
- a) The standard load of the Taber Linear Abraser is 350g, including the spline shaft; weight support; and stainless steel wearaser collet kit.  
*Spline kit (130855) and weight support (130552) used prior to S/N 20031338.*  
*Spline kit (132190) and weight support (132181) used after.*
  - b) If no accessory weights are being used, it is possible to lighten the load by removing the accessory weight support.
  - c) The maximum number of 250g weight discs that should be applied to the weight support is:  
*130552 – 5 discs    132181 – 7 discs*
  - d) Use of the 8mm diameter spline kit (131603) requires the adaptor sleeve (131854) to utilize standard attachments
  - e) Recommended **MAXIMUM** loads:
 

Spline Kit (130855):	2100 grams
Spline Kit (130855-1):	2350 grams
Spline Kit (130855-2):	2600 grams
Spline Kit (131603):	1500 grams
Spline Kit (132190):	1600 grams
Spline Kit (132280):	2100 grams
